Parachuting, The Skydiver's Handbook

This is only up-to-date basic sport parachuting handbook and it is highly recommended. —The Next Whole Earth Catalog.

For a lesson or just some vicarious thrills, read Parachuting, The Skydiver's Handbook. —New York Post.

A valuable collection of information and a good first look at the sport.—Library Journal.

Dan's strength as a writer lies in his technical descriptions of equipment; these are faultless. —British Sport Parachutist magazine.

This handy volume falls into the "Everything you need to know about..." category and is required reading for everyone who wants to jump out of an aeroplane. —Flight International.

All aspects are covered in a clear and authoritative fashion. —Air International.

Poynter's latest fills the bill of educating while entertaining. He says it well. —Parachutist magazine.

Chapters cover an overview of the sport, detailed discussion of each facet of the first jump, the history of parachuting, and an in-depth study of parachuting emergencies. Other sections discuss specialized jumping and equipment. Appendix contains a glossary and a list of drop zones, books, magazines and films. —Sporting Goods Business.

Well-written, this volume is profusely illustrated with photos and drawings. A useful addition to the public library collection. —Choice magazine.

Dan Poynter has done it again. —Spotter NewsMagazine.

Dan Poynter has generously guided thousands to authorship. Their books make this a better world.

—Dr. Robert Müller, Past Assistant Secretary General of the United Nations
and author of *2000 Ideas & Dreams for a Better World*.
